## April 2010

A good time to travel and to meet up with all overseas contacts and family friends

Someone close to you will come up with a good idea that you will be keen to get under way.

You will find that things at work are moving very fast and you'll have a lot to keep pace with.

Unexpected news or a sudden change in circumstances could be just the tonic needed to renew your lust for life and boost self-confidence.

## May 2010

A special event or opportunity may trigger a change in circumstances, your environment or relationships for the better.

Observe loved ones closely and tailor your responses to match their moods in home matters.

If you put forward a logical argument, others will be unable to resist your suggestions.

Remain flexible and keep your plans open-ended. You should also focus on one task at a time and avoid making emotional decisions.

## June 2010

House-hunting is especially favoured now, since your instincts on real-estate are extremely good.

As details of a plan or proposal gradually unfold you will begin to get excited about the potential it holds.

Your mood may be pensive, but you will be surprisingly quick off the mark.

Fabulous times to learn and grow, which in turn makes progress possible, and for travel.
