Aries March 21 – April 20

LOVE 

You are filled with kindness and sympathy. This combination is propitious to all sincere friendships and to loving relationships. It guarantees a wonderful harmony in all your dealings with your loved one. So, be happy and enjoy.

Money \$ 

A window of opportunity that is excellent for signing new agreements and making new investments. Financial, legal and career matters should prove successful and lucrative.

Taurus April 21 – May 20

LOVE 

Basically, you will just feel like enjoying yourself and work therefore will take second place to leisure activities. You're sure to be of one mind, at least in an important way. When it comes to romance, you are very choosy - there is no doubt about that.

Money \$ 

Promotions and salary increases are likely. You will now be prepared to put heart, body and soul into all that you do and this tremendous effort will not go unnoticed.

Gemini May 21 – June 21

LOVE 

Whatever happens, you feel an integral part of your social circle, and you'll be using your ingenuity to re-establish harmony all around. You're much more playful -- all that good energy is helping you see the brighter side of almost anything.

Money \$ 

If you have confidence in yourself, you'll be immediately snapped up in a new project with a much more promising outcome. You are more in tune with your resources, money and talents and your sense of self-worth.

Cancer June 22 – July 22

LOVE 

You believe in ideal love, in the equality of the sexes and other such theories that are rather naïve. Try to come down to earth on your own free volition, or someone else might have to get you down by force.

Money \$ 

Though you are usually more comfortable with big-picture stuff, for now you're preferring to drill down and take care of the budget, data or other small-bore issues that have been making life weird.

Leo July 23 – August 22

LOVE 

Contact with your beloved may seem well nigh impossible. You always seem to be missing each other, and you could easily get tired of leaving messages. Several different flirtations could be on your mind.

Money \$ 

A cash flow problem causes a little bump in your plans, but not so badly that you can't make up for it. It is excellent if you want to sign a financial agreement, invest or get your finances into shape by turning over a new leaf. Sort out debt issues too. If the numbers don't add up.

Virgo Aug 23 – Sept 22

LOVE 

Contact with your beloved may seem well nigh impossible. You always seem to be missing each other, and you could easily get tired of leaving messages. Does your romantic partner have a hankering to move?

Money \$ 

You're feeling somewhat more sedate and even-keeled, so see if you can go over your budget or other important plans. Your attention will be drawn to money matters now although feelings and emotions may override your intellect. Careful, this may lead to excess spending!
